MANUEL RIART

ADVANCED MECHANICAL ENGINEERING STUDENT
87% OF THE DEGREE COMPLETED

Buenos Aires, Argentina | +54 9 3460 69 7836 | mriart@itba.edu.ar

PROFESSIONAL PROFILE

Experience in Turismo Carretera telemetry and in the development of a Formula SAE car.
Focus: product engineering, design, finite element analysis, CAD and manufacturing.

AUTOMOTIVE EXPERIENCE

Di Meglio Motorsport | Turismo Carretera | 2023

- On-track data collection and analysis of vehicle telemetry and video.
- Participation in technical reviews and problem solving, considering mechanical design, material selection and manufacturing.

PROJECTS

Formula SAE ITBA | 2023 – present

- Design and construction of a single-seater race car in an interdisciplinary team, using CAD tools and project management.

AWARDS

Ford Innovation Challenge III: AI Edition | October 9, 2026
First place in the Data-Driven Predictive Quality Challenge (Ford Argentina).

EDUCATION

Instituto Tecnológico de Buenos Aires (ITBA) | 2021 – present
Mechanical Engineering, Automotive Engineering track.

University of the Basque Country (UPV/EHU) | September 2025 – January 2026
International academic exchange.

TECHNICAL SKILLS

Software: CATIA V5, Siemens NX, SolidWorks, GT-SUITE,
MoTeC i2 Pro, OptimumKinematics, MATLAB, Python, Microsoft Office and Arduino.
Automotive engineering: telemetry, internal combustion engines and automotive mechatronic systems.

LANGUAGES

Spanish — native
English — advanced

CERTIFICATIONS

First Certificate in English (FCE B2)
Excel XLS101x, Universitat Politècnica de València.
